Col. A. M. Hughes, Jr., Chairman of the Republican State Centra Committee, of Tennessee, is an enthusiastic Blame man. While in Washingt n recently he said: "The Republicans will carry l'ennessee in the next campaign. It will be the purpose the party to break the solid South. to the matter of the Bangor Collectorship the WHIG has treated the different candidates fairly, and on the appointment of Gen. Roberts, referred to him with am ple courtesy. During this controversy, however, Mr. Bass, who has been for all the candidates, and who only boarded the THAXTER& WIS. Roberts train when he found it was heaced for the Custom House, has been rushing back and forth between Bangor and the Capital, until he made himself a nul sance at both ends of the route, and that THAXTER& WIS red hot Administration organ, the Boston Herald, stated that he had practically been ordered to stay away from the White House. This the WHIG quoted, whereupon Mr. Bass' organ, which has always been noted for its "mild" treatment of p litical opponents, attempted to pose that individual in the role of injured innocence This is only a little less Indicrous than its effort to dispose of the Herald's scathing reference by the allegation that he called at the White House but once and then only remained for a few moments. It will thus be seen that Mr. Hass' organ is rather more sovere than the Herald, for while the latter allowed him several visits in which to disgust the President with his importunities, it appears from the Commercial that he did the whole business in one visit lasting but a few moments. On s question of accuracy as to the number of visits we think that the Bangor Demo-

If this is it, it will be interesting to know whether the Administration will be content to restrict itself to dip omatic correspondence which, however excellent it may be, his thus far afforded nighty little protection to our fishermen. As long as our Government does nothing the Canadians will ontinue, to harrass our fishermen in every way possible, but if they should wake up some fine morning and discover an in-creased duty on their fish with our purts closed to their vessels except for the 3t me commercial privileges accorded our crafts in their parts, there would be a change of front in short order.
